
MID-ASSIGNMENT WRITEUP

Tay Yu Jia

(A0171240W)

Proposed List of Features:

Feature	Description
Make New Task	CREATE
View All Tasks	READ
Edit Task	UPDATE
Delete Task	DELETE
Add Tags	Includes prioritizing tasks
Add Deadline	Displays remaining time till deadline
Add Details / Media	Instead of text-only, other forms of media should be supported
Search / Filter	Filters relevant tasks according to the search criteria (e.g. by name, tag)
Sort	Displays tasks in order of date modified, date created
Complete Task	Moves task to archives
Keyboard Shortcuts	
Collaboration	

I came up with the above list after reviewing what I felt was most important in a task management app by reflecting on my experience with using similar apps such as Reminders on my phone and Trello. In addition to the basic features, I felt that adding keyboard shortcuts will greatly improve the user experience and simplify the whole process. Also, I hope to add elements of collaboration to the app so as to increase its appeal.
